84.14%	

Personal Details

Date of Birth : 23/09/2003

Projects

Saarve

It is a web application where pharmacies can register themselves and their doctors. Customers can book an appointment with a doctor from any pharmacy & can also order medicines from any pharmacy. (I've used Google OAuth for customer authentication)

- <https://github.com/FakeCoder01/saarve>

E-learning Platform Using Django

A e-learning platform with real-time message, like, dislike, admin panel, user settings, premium subscription etc.

- <https://github.com/FakeCoder01/eBidya>

URL Shortner with access to API

URL shortner website in Django where user can generate API key and get access to the API

- <https://github.com/FakeCoder01/django-URL-shortner>

Social Network Using PHP

A basic social network website in php and MySQL. The site has like, dislike, comment and other features.

Chat Application

A real time group chat application using Django

- <https://github.com/FakeCoder01/PythoChat>

Achievements & Awards

- 5★ C/C++ on Hackerrank
- 203 rank on HPE codewars 2021
- Event coordinator of school's annual function
- I won the fully-funded Russian Government Scholarship offered by the Russian Ministry in 2022 and got an admission at Tomsk State University to study in Bachelors. The scholarship funds the whole tuition fees & accommodation with a monthly stipend.
